Altec Lansing InMotion User Guide: A Complete Overview

When you first unwrap the Altec Lansing InMotion speaker, you're greeted with a sleek design, powerful audio output, and a promise of on the go music. Whether you're a music lover, a traveler, or a professional who needs reliable audio in the field, the InMotion speaker is engineered to deliver high quality sound in a portable package. This guide will walk you through every aspect of the Altec Lansing InMotion, from initial setup and connectivity options to advanced settings, troubleshooting, and maintenance. By the end of this article, you'll have a thorough understanding of how to get the most out of your InMotion speaker.

Table of Contents

- Unboxing & First Impressions
- Key Features & Specifications
- Initial Setup & Powering On
- Connectivity Options
- Audio Settings & EQ Customization
- Portable Use & Battery Management
- Advanced Settings & Firmware Updates
- Common Issues & Troubleshooting
- Maintenance & Care Tips
- Warranty & Support
- Conclusion

Unboxing & First Impressions

Upon opening the Altec Lansing InMotion package, you'll find the speaker itself, a USB-C charging cable, a user manual (in print and digital PDF), and a quick start guide. The speaker's build quality feels premium: a rugged polycarbonate shell with a matte finish, a rubberized grip on the base, and a discreet speaker grill that protects the drivers.

The first thing you'll notice is the speaker's balanced size. It's compact enough to fit in a backpack but large enough to house a 10W driver and a 2W tweeter that deliver crisp highs and robust lows. The speaker also features a dedicated power button, volume controls, and a Bluetooth icon for quick pairing.

Key Features & Specifications

- Power Output: 10W woofer + 2W tweeter
- Battery Capacity: 4000mAh lithium ion
- Playtime: Up to 12 hours (standby 30 days)
- Connectivity: Bluetooth 5.0, AUX, USB-C audio input
- Water Resistance: IPX4 rating – splash resistant
- Dimensions: 10.5" x 6.3" x 4.1"
- Weight: 1.3 lbs (590g)

- Supported Audio Codecs: SBC, AAC, aptX Low Latency
- Microphone: Built in for hands free calling
- Warranty: 2 year limited warranty

Initial Setup & Powering On

1. Charge the Speaker: Connect the USB-C cable to the speaker’s charging port and plug the other end into a power source. A charging LED will illuminate green when fully charged.
2. Power On: Press and hold the power button for 2 seconds. The speaker will emit a short chirp and the LED will flash to indicate it is ready for pairing.
3. Configure Bluetooth (Optional): If you plan to use the speaker wirelessly, enable Bluetooth on your device and select “Altec Lansing InMotion” from the list of available devices.
4. Test Audio: Play a song or video from your phone, tablet, or computer. Adjust the volume using the speaker’s controls to ensure the sound is at a comfortable level.

Connectivity Options

The Altec Lansing InMotion offers versatile connectivity to suit a variety of scenarios.

Bluetooth

With Bluetooth 5.0, you enjoy a stable 10 meter range and low latency. Pairing is straightforward:

- Open your device’s Bluetooth settings.
- Select “Altec Lansing InMotion” from the list.
- Confirm the pairing code if prompted (usually 0000).

AUX Input

For wired connections, use the 3.5mm AUX input. Connect a cable from your device’s headphone jack to the speaker’s AUX port. The speaker will automatically switch to AUX mode, indicated by the LED turning orange.

USB C Audio Input

Some devices support audio output via USB C. Connect a USB C cable from your device to the speaker’s USB C port. The speaker will detect the audio signal and play it through its drivers.

Microphone for Hands Free Calls

When you pair a smartphone, the speaker’s built in microphone becomes active. Make a call, and the speaker will act as a speakerphone with noise cancellation features.

Audio Settings & EQ Customization

To tailor the sound to your preference, use the built in EQ presets or the advanced EQ settings via the companion app (available for iOS and Android).

Preset EQ Modes

- Rock – Boosts mids and highs for guitar-driven tracks.
- Jazz – Emphasizes the midrange for smooth saxophone and piano.
- Pop – Balanced for vocal clarity.
- Custom – Allows manual adjustment of bass, mid, and treble sliders.

Companion App Features

- Real time EQ adjustments.
- Firmware update notifications.
- Battery status monitoring.
- Remote volume control.

Portable Use & Battery Management

The InMotion’s battery life is one of its standout features. Here are tips to maximize performance:

- Battery Health: Avoid letting the battery drop below 10% frequently. Let it charge fully before the next use.
- Standby Mode: When not in use, keep the speaker in standby mode to preserve battery life. The LED will remain off.
- Charging Time: A full charge takes approximately 2 hours. Use the included USB-C cable and a 5W charger.
- Power Saving Mode: If you’re using the speaker in a low power environment, enable power saving mode via the app to reduce background processes.

Advanced Settings & Firmware Updates

To keep the speaker running smoothly, check for firmware updates regularly. Firmware upgrades often include bug fixes, new features, and improved Bluetooth performance.

Checking for Updates

1. Open the companion app.
2. Navigate to the “Settings” tab.
3. Tap “Check for Updates.” If an update is available, follow the on screen instructions to install.

Advanced Settings

- **Bluetooth Pairing Mode** – Switch between “Single” and “Multi Device” pairing.
- **Audio Output Balance** – Adjust left/right channel balance.
- **Bass Boost** – Enable or disable additional bass enhancement.

Common Issues & Troubleshooting

Below are solutions to common problems you might encounter.

1. Speaker Won’t Power On

1. Ensure the battery is charged.
2. Press and hold the power button for 5 seconds.
3. Check for any physical damage or debris around the power button.

2. Bluetooth Connection Drops Frequently

- Move closer to the paired device.
- Remove other Bluetooth devices from the list to reduce interference.
- Reset the speaker by holding the power button for 10 seconds.
- Update firmware via the companion app.

3. No Sound from AUX or USB C Input

1. Verify the cable is securely connected.
2. Check if the speaker is in AUX mode (LED turns orange).
3. Try a different audio source to rule out device issues.
4. Reset the speaker.

4. Battery Drains Quickly

- Check if the speaker is set to “Always On” mode.
- Reduce volume levels.
- Disable Bluetooth if not in use.
- Perform a factory reset (refer to the user manual).

Maintenance & Care Tips

Keeping your Altec Lansing InMotion in top condition ensures longevity and consistent performance.

- Cleaning: Use a soft, dry cloth to wipe the speaker. Avoid water or cleaning solutions that could damage the electronics.
- Storage: Store the speaker in a dry, cool place when not in use. Avoid leaving it in direct sunlight for extended periods.
- Battery Care: Store the speaker with a 40–60% charge if you plan to keep it unused for a month or more.
- Firmware Updates: Regularly check for updates to keep the speaker secure and functional.

Warranty & Support

The Altec Lansing InMotion comes with a 2 year limited warranty covering manufacturing defects. If you encounter a hardware issue, contact Altec Lansing customer support via their website or call the provided hotline. Keep your purchase receipt and proof of purchase for warranty claims.

For additional support, visit the official Altec Lansing forums or consult the online FAQ section. You can also access downloadable PDFs of the user manual for quick reference.

Conclusion

The Altec Lansing InMotion speaker blends powerful audio, versatile connectivity, and durable portability into a single, user friendly package. By following this user guide, you’ll be able to set up, customize, and maintain your speaker with ease. Whether you’re streaming music in a park, conducting a field interview, or simply enjoying a movie at home, the InMotion delivers reliable sound that adapts to your environment. With proper care and timely firmware updates, your Altec Lansing InMotion will continue to provide crisp, high fidelity audio for years to come.
