Understanding the Day by Day Armageddon Mode

The **Day by Day Armageddon** mode is a time bound, escalating challenge that simulates a world on the brink of collapse. Players must survive a series of days, each presenting new enemies, environmental hazards, and objectives. The ultimate goal is to reach the final day and defeat the Armageddon boss, a massive entity that threatens the remaining humanity.

Each day follows a strict timeline:

1. Day Start: The player is dropped into a new location with limited supplies.

Failure to complete a day's objectives results in a reset, forcing the player to start over from the beginning of that day. This structure demands meticulous planning and efficient execution.
